# HUMNA ISHFAQ

**Senior Software Quality Assurance Engineer | Manual QA | AI Chatbot Testing**

Lahore, Pakistan (Open to Remote)

+923257848648 | humnaishfaq06@gmail.com | LinkedIn

## PROFESSIONAL SUMMARY

Senior Software Quality Assurance Engineer with 2.5+ years of experience testing 7 web and SaaS platforms and 4 mobile applications, including multi-tenant SaaS products and complex business workflows. Skilled in manual, functional, regression, and exploratory testing, test-case design, defect reporting, and fix verification. Experienced in role-based access, payment flows, and third-party integrations, with an AI-aware QA mindset for validating chatbots. Mentors junior QA testers and works closely with developers to improve release quality.

## TECHNICAL SKILLS

| | |
|---|---|
| **Manual QA** | Functional Testing, Regression Testing, Smoke & Sanity Testing, End-to-End Testing, Exploratory Testing, Positive & Negative Testing, Cross-Browser & Responsive Testing, Mobile App Testing, User Acceptance Testing (UAT) |
| **Test Design** | Test Planning, Test Scenarios, Test Cases, Test Execution, Requirement Analysis |
| **Defect & Task Management** | Trello, Bug Reporting, Defect Tracking, Issue Documentation, Severity/Priority Classification, Bug Retesting & Verification |
| **AI & Chatbot Testing** | AI Chatbot Verification, Prompt Testing, Response Relevance, Fallback Behavior Testing |
| **Domain Knowledge** | HRM Systems, Team Management Platforms, CRM, Role-Based Access Control (RBAC) |
| **QA Processes** | SDLC, STLC, Agile Methodology, Release Sign-Off |

## PROFESSIONAL EXPERIENCE

### AppliconSoft

#### Senior SQA Engineer

Jun 2026 – Present

- Plan and execute manual, functional, regression, UI, and exploratory testing for SaaS platforms and web applications.
- Design test scenarios and test cases for complex workflows, form validation, permissions, edge cases, and error handling.
- Test AI chatbot interactions, user inputs, and expected functionality to identify unexpected behavior.
- Report defects, including critical-severity issues, with reproducible steps, expected vs. actual results, and evidence.
- Mentor junior QA team members, review their reported issues, and coordinate testing and defect verification.
- Collaborate with developers to investigate issues, retest fixes, and improve release quality.

#### SQA Engineer

Apr 2025 – May 2026

- Performed functional, regression, UI, and end-to-end testing of web applications.
- Created and executed test cases based on requirements and user workflows.
- Tested forms, dashboards, role-based permissions, payment flows, notifications, and third-party integrations.
- Identified and documented defects, including critical issues, with clear steps and evidence, then retested fixes to confirm expected behavior.
- Checked responsive layouts, navigation, validation messages, and error handling across relevant browsers and screen sizes.

### Associate SQA Engineer
Jun 2024 – Mar 2025

- Executed manual test cases to verify application functionality against requirements.
- Identified UI inconsistencies, functional defects, and unexpected application behavior.
- Tested positive and negative scenarios, field validations, navigation, and common user journeys.
- Maintained clear bug reports, supported retesting after fixes, and worked with senior QA members to improve test coverage.

### UI Intern (Mobile App)
Mar 2024 – May 2024

- Worked on user interface (UI) tasks for a mobile application during a three-month internship.
- Gained hands-on exposure to the mobile app development process and teamwork with developers before moving into QA.

## SELECTED PROJECTS

**ROI** — Multi-Company SaaS Business Management Platform | roilevelup.com
Tested CRM, customer/supplier management, appointments, invoicing, subscriptions, role permissions, and business workflows; verified Stripe payment flows and DHL/Trello integrations, including communication features.

**Chat Cactus** — AI Chatbot Platform | chatcactus.com
Tested AI chatbot functionality, workspace management, and customer-support workflows to identify functional issues and verify expected application behavior.

**Social Rocket AI** — AI-Powered Social Media Platform | socialrocketai.com
Tested content creation, scheduling, analytics, and key workflows across responsive interfaces, validating user flows, input handling, and consistent UI behavior.

**Track Pilot AI** — Workforce Productivity SaaS | trackpilotai.com
Tested time tracking, project management, productivity, and team-performance workflows.

**Team Suite AI** — Team Management Platform | teamsuiteai.com
Tested team-management and productivity features across responsive and interactive interfaces.

**Flow Ledger Pro** — Accounting & ERP Platform | flowledgerpro.com
Tested accounting and business workflows, including functional behavior and responsive interfaces.

**AppliconSoft** — Corporate Website | appliconsoft.com
Tested website functionality, UI consistency, responsive layouts, navigation, forms, and content presentation to identify usability issues and verify expected behavior across pages.

**Mobile App Testing** — Additional Projects
HRM, SnaptheCity, CorpCare, and ProAdvisorCoach mobile applications, covering functionality, UI, and usability.

**AsklyForm** — MERN Stack Form Builder (Final Year Project) | asklyform.vercel.app
Developed a web-based form builder with form creation, drag-and-drop editing, and live preview. Technologies: React.js, JavaScript, Node.js, Express.js, MongoDB, Mongoose, Material UI, REST APIs, JWT, bcrypt.

## EDUCATION

**Bachelor of Science in Computer Science (BSCS)** | Virtual University of Pakistan 2026
**Associate Degree Program (ADP) in Computer Science** | Virtual University of Pakistan 2023
*Transferred into the BSCS program.*
